

Music

Music is taught separately and within topic work, as part of the cross curricular approach within classroom activities. The school also offers tuition using peripatetic teachers. These include tutors in guitar and keyboards. We have a school choir, which is rapidly building up its proficiency and reputation in the area through singing within the community and at events in the town centre. Years 4 and 5 are given the opportunity to participate in Young Voices every two years. Years 1 and 3 take part in Mornings of Music, where they perform alongside other children from various schools in Coventry. There are also many opportunities for the children to perform in assemblies, school concerts and in the community.
